Earth's Convulsion

PEOPLE FLED IN TERROR FROM REELING HOMES

No Lives Lost—Cathedrals Are
Damaged and Walls Are
Cracked

ROME, Jan. 13.—All Tuscany and many cities of Northern Italy were shaken by a severe earthquake this morning, and vague reports of heavy property damage have been received. At Genoa the shock was so heavy that people rushed out of their houses and feared to return for many hours.

Other cities affected were Milan, Lombardi, Venice, Padu, in Venetia, and Florence in Tuscany. Later reports indicate that the shock was more severe than indicated at first. No reports of deaths have been received. The details are meagre.

ROME, Jan. 13.—Latest reports from Tuscany show the property damage by the earthquake consisted in the damage of a few houses and a general cracking of walls in the various cities. Several cathedrals were damaged.

CHINESE WILL BE STRICTLY BARRED

By New Exclusion Act Now Being
Put in Shape for
Congress

WASHINGTON, Jan. 13.—It is reported that a bill is being prepared, if not already in shape for submission, that will do away with the present discrimination against the Chinese, and yet render their exclusion more absolute than before. It is said that the anti-Japanese bills now before the California legislature are not approved by the administration, being regarded as a mere sop to certain classes of voters, and as involving bad faith and folly.

GOLDEN DOLLARS FROM BIG BENEFIT

World Famed Artists Win Sum
of \$6200 for Italy's
Sufferers

LOS ANGELES, Jan. 13.—The great benefit given yesterday at the Simpson Auditorium, Los Angeles, in which Madame Modjeska, Madame Gaski, Nat and Mrs. Goodwin, Florence Stone, as well as other artists of more or less fame, took part, was a tremendous success.

The proceeds, which will go to Italy for earthquake sufferers, was \$6200, the performance lasting from 1:15 p. m. to 7:25 p. m., and being witnessed by an audience that packed the auditorium.

Weather Forecast
SAN FRANCISCO, Jan. 13.—Rain tonight and Thursday, with snow in the mountains.

STEAMER WRECKED NEAR ROCKY POINT. TWO MEN DROWNED

SANTA BARBARA, Jan. 13.—Two men are dead and the lives of twenty one others are in grave danger on the wrecked steam schooner Sibyl Marston which is being dashed to pieces on the rocks a mile south of town on the surf, near Point Arguella light house today, after going aground last night.

Two men were drowned in trying to reach here through the surf, and the captain, with twenty remaining members of the crew, are still aboard the doomed vessel. Efforts to rescue them are proving futile, according to advices received here.

**SCHOONER WRECKED
ON ROCKY COAST**
SAN FRANCISCO, Jan. 13.—Word was received here today that the steamer wrecked near Rocky Point, north of Point Conception, last night was the "Sibyl Marston," lumber laden, from Gray's Harbor for San Pedro. Two men were drowned. One body was recovered.

The Marston is a 670 ton vessel, and carried a crew of twenty-two, with Captain Bjolinski. It was built a year and a half ago, and carried a million feet of lumber.

TILLMAN HAS BAD SET BACK

His Statements Are Riddled
Effectively by Attorney
General

Who States Emphatically That
Benjamin Never Told Him
of His Purchase Plans

WASHINGTON, D. C., Jan. 13.—The strongest feature of the defense made by Senator Tillman, which was his assertion that he had made no concealment of his acts from the attorney general when he called on him, was riddled yesterday in a statement issued by Attorney General Bonaparte. He states that Tillman did conceal from him the fact that he had an arrangement to acquire some part of the Oregon lands, but informed him that he was seeking information about the lands solely in the discharge of his public and senatorial duties.

Mr. Bonaparte also replied to that passage in Tillman's speech when he said:

"It might be well to inquire whether or not the Attorney General has been ordered not to obey the law of congress passed last April—which I will call the Tillman-Bonaparte law—ordering suit to be instituted for the recovery of these lands."

The Attorney General states that on Sept. 4, 1908, suit was brought against the California and Oregon Railroad company, the Southern Pacific Co., the Union Trust Co. and other defendants, for the purpose of declaring and enforcing a forfeiture of the public lands claimed by the railroad under Mr. Harriman's control, this being one in accordance with the resolution referred to by Tillman.

Postmaster General Meyer also issued a statement that the facts in regard to Tillman's connection with the land deals had been in the possession of the president only since January, when the investigation of the postoffice inspectors was completed.

**PITTSBURG SINCHES
GRAFTING PRESIDENT**

PITTSBURG, Jan. 13.—Chas. Cameron, president of the local traction line, was convicted yesterday of bribing councilmen, and today was refused bail although he had secured twenty-five thousand dollars surety for his freedom. His attorneys then moved for a new trial.

STORM WATER SPREADING AND ITS EFFECT

George Frost of Riverside Says
All Waters Would be
Stopped

CONCERNING BENEFIT HERE "IT DEPENDS"

Press Says Project is in Ac-
cord With Scientific
Principles

In discussing the efforts of the Tri-Counties Reforestation Committee to secure lands in the debris cone of the Santa Ana river for the purpose of sinking the storm waters in winter, George Frost, for many years president of the Riverside Water Company, said: "This work alone more than justifies the existence of the committee, and the movement for the spreading of water now being inaugurated will be continued until even in winter time not a drop of water will flow past the Colton bridge toward the sea."

"It is a broad question," said H. Clay Kellogg, engineer for the S. A. V. I. Co. and the A. U. W. Co., when shown the above this morning. "In most winters all the water could be stopped. In such wet winters as we had in 1889 there wouldn't be the slightest thought of holding back the flood waters and spreading them out. As to the benefit it would do us, I will say that it all depends upon the year and other matters. If the upper users sink wells and take the underflow of the river it will not help us any to have all the water spread out. If the Riverside and up-country users agree not to take out any more water than they are taking out now it would help us in some years."

The Riverside Press, discussing the project, says:

These are the words of an authority on the use and conservation of water, and they were spoken deliberately. Mr. Frost, Francis Cuttle, W. E. Pedley, W. G. Fraser and other citizens of Riverside who are interested in irrigation matters were among the first to recognize the feasibility and desirability of storing water by spreading it on the gravels in the river bottom and their earnest support of the plan has been largely responsible for the trial tests made in this matter by the Riverside water companies, and for the large effort in this direction that is now

HOPE ABANDONED OF SAVING ALIVE ENTOMBED MINERS

SWITCHBACK, Jan. 13.—Eleven bodies were recovered today from the Lick Branch coal mine where an explosion yesterday entombed one hundred miners. All hope of recovering the men alive has been abandoned.

BURNING GAS WAS TOO INTENSE TO ENTER MINE

The heat from the burning gases was so intense yesterday afternoon that no attempt can be made to enter the Lick Branch mine, where it is believed the death list will reach a hundred and fifty. Hundreds were willing to try to enter the mine but authorities forbade because the attempt would have meant certain death.

SLASHES HIS THROAT AFTER KILLING WIFE

HAMILTON, Ohio, Jan. 13.—After killing his wife with a revolver, Frank Donnelly of Oxford, shot himself five times, slashed his throat and wrists with a razor, and then walked sixteen miles to a hospital here. He is fifty-six years old and will probably die.

SUNDAY REST LAW WILL GET SOME HARD WHACKS

Anti-Race Track Gambling Bill
is the Cause of Distress
to "Tom" Williams

SACRAMENTO, Jan. 13.—The final formality of approving the election of United States Senator Geo. C. Perkins, was taken at noon in joint session of the two legislative houses. Following the verification of the vote of each house, a message of thanks from Senator Perkins was read.

Senator Thompson has introduced the much-discussed Sunday rest law, which provides for one day of rest every week for every worker, and which aims at the closing of most places of business and amusement on Sunday.

A strong lobby is here fighting the Sunday rest law on the ground that they do not want religious liberty to be restricted. A petition signed by over thirty-five thousand names has been presented against the measure.

"Tom" Williams of San Francisco, manager of the California Racing Association, which has big interests at Arcadia, as well as at Emeryville, is reported to have said that he would give \$1,000,000 to kill the anti-race track gambling bill.

Transue has presented a bill calling for an appropriation of \$55,000 to be expended in preventing the introduction of Asiatic cholera, bubonic plague, smallpox and other contagious or infectious diseases.

HE HAD TWO WIVES AND IS NOW SUED BY BOTH

SAN FRANCISCO, Jan. 13.—Because he claims that two divorced wives have tied up his fortune in the courts, L. B. Coates, formerly a rancher near Los Angeles, told the court today: "I'm living on wind and would like this action settled as soon as possible." After Coates was divorced from his second wife, who was awarded alimony, his first wife set up a claim under the "community interest law." The entire estate is tied up and none are allowed to use the money.

CRAZED BY DEATH OF WIFE HE KILLED HIS OWN CHILDREN

MANKATO, Minn., Jan. 13.—Concealing himself at the foot of the stairs in his home today, James York, a quarryman, cut the throats of four children as they descended one by one, then hanged himself in the woodshed. The eldest daughter, Ida, alone escaped. He first killed his son, Earl, aged 14; then Nina, aged 12; Vera, aged 6, carrying the baby, Sula. He then murdered the infant. It is believed his mind was unbalanced by the death of his wife recently.

TWICE WED WOMAN IS WEARY OF SIMPLE LIFE

SAN FRANCISCO, Jan. 13.—E. Francis Lee, president of the Venice-Delray Improvement Company of Los Angeles, also a resident of Santa Barbara, today is seeking his wife who is said to have left their palatial home at Santa Barbara, because she is tired of the simple life. Mrs. Lee was formerly Mrs. Ada Thompson of Santa Barbara. Lee liked seclusion and his wife wanted excitement.

by the Disaster

LOS ANGELES, Jan. 13.—The Wilde building on East Fifth street, was destroyed late yesterday afternoon by fire resulting from an explosion of gas in the Redondo restaurant in the building. Sixteen men and women were injured and the property loss was \$14,000. The 54 rooms of the Austin Hotel, located in the building, were all occupied but one. The occupants all escaped. A grocery store, a jewelry stock, a pool-room, a liquor house, tailor and barber shops were in the building.

MONTANA CHURCHMAN MAY YET BE BISHOP

BALTIMORE, Jan. 13.—The name of Bishop John P. Carroll of Helena, Montana, is reported to be forwarded to Rome among others for coadjutor Bishop of Baltimore, by Cardinal Gibbons.

PASADENA TO KEEP MUNICIPAL PLANT

PASADENA, Jan. 13.—Pasadena will go on voting bonds for the maintenance and extension of the municipal lighting plant, for yesterday the city council rejected the offer of \$250,000 made by the Edison Electric Company for the plant, and began preparations to call a bond election for \$150,000 to be devoted to the plant. Manager Koerner has been instructed to secure details of what is needed at the plant and how much be devoted to the extension of the property, so that every taxpayer may be in a position to receive electricity from the city.

**STARVATION THREATENS
THE FLATHEAD INDIANS**

HELENA, Jan. 13.—Hundreds of Indians on the Flathead reservation are said to be practically without food, and are in danger of starvation unless immediate relief is offered. Fred C. Morgan, superintendent of the reservation, will immediately appeal for government aid until they can be removed to another reservation. Many horses are dead, and others must be killed as there is no food for them.

NEW HAVEN, Jan. 13.—A fire which completely destroyed the home of Samuel Higgins, the general manager of the New York, New Haven and Hartford railroad, caused the death of his mother, Mrs. Isabella H. Moore, aged eighty-four, and a probably fatal injury to his mother-in-law, Mrs. M. E. Corbin, early today. Higgins, with his wife, a daughter, Isabella, and his young son, barely escaped with their lives by jumping from the second story windows. The fire was caused by an overheated furnace. Higgins awakened his family, and the only means of escape was by jumping. Mrs. Moore was killed in trying to escape and Mrs. Corbin was hurt in jumping.

CASH IS OFFERED TO OREGON SOLONS

To Desert Governor Chamber-
lain for United States
Senator

PORTLAND, Jan. 13.—Bunches of greenbacks are being dangled before the eyes of Republican statement No. 1 members of the legislature, which opened Monday, as a bait to desert Gov. Chamberlain, the statement No. 1 candidate for United States Senator. Two admit they have been offered \$15,000 each to refuse to vote for Chamberlain. A third says he has been approached, but does not go into details.

"They're after me," he has declared to friends. Federal patronage is also freely offered. One United States appointment has been offered to several men. Up to date it has not been accepted.

SAN PEDRO MUST BE FORTIFIED HARBOR

Secretary of War Recommends
Appropriation for the Pur-
chase of Land

The Secretary of War has recommended the fortification of San Pedro, the entire cost of which would be \$3,655,269, \$400,000 of this sum to be appropriated this year for the purchase of land. In the Secretary's report it is shown that San Pedro will undoubtedly become a very important port, both as to the amount of commerce handled by it and as to the large, safe anchorage which it will afford for deep-draft vessels. There will also be splendid railroad, terminal and wharfage facilities. In fact, the harbor will soon be suitable for the embarking of large military expeditions.

SEEKING DEADLOCK TO DEFEAT CHAMBERLAIN

Oregon Politicians Make Crafty Schemes To Prevent the Election of Peoples Choice

SALEM, Jan. 13.—Developments indicate that there is a plan to defeat Gov. Chamberlain, the people's choice for United States Senator, by deadlocking the legislature and holding the election up until next session. Inducements are being offered to members to remain away from the joint session next Tuesday when the ballot is to be taken.

Another line of attack is to persuade members that it is their duty to not vote for Chamberlain unless he agrees to appoint a Republican successor to Secretary of State Benson, who is reported as dying of cancer. The Secretary of State will succeed as Governor if Governor Chamberlain is elected senator.

RAIN WAS GOOD FOR CELERY CROP

The December Shipments From the District Came to 435 Carloads

HALF THE ACREAGE HAS BEEN CUT OUT

Italians and Japanese Having Trouble Getting Their Kegs

SMELTZER, Jan. 12.—Smeltzer had quite a good rain on Saturday, and again last night it set in and is now giving us the finest warm rain of the present season. This stops all shipments of celery for the time being, but soon as the rain stops all the crews will be increased and we will have heavy shipments for a few days. The weather has been very unfavorable for the growth of the crop all through this season and this will be about the first really favorable growing weather we have had.

Shipments for December were 435 cars, making a total of 536 cars, and since the first of January there have been shipped something close to 200 cars more. Half the acreage is cut out, which means close to half the crop. Good growing weather will increase the yield of the remaining one-half, but, to offset this gain, there are a great many patches of late celery that are somewhat ragged and will not cut out as much per acre, even under most favorable conditions, as the early. To the above figures should

be added some fifty or sixty cars, same being by outside shippers and as local shipments by the Celery Growers' Association.

Will Sharratt came in Thursday noon from Aliso, where he has been loading out of the Irvine Company's ranch. He reports everything moving along smoothly excepting for an attempted fight between Pinkham & McKeavitt's Jap foreman and one of the packers. He says the packer was the best runner of the two, so no damage was done.

Geo. W. Moore was in Santa Ana Wednesday attending the regular meeting of the Board of Supervisors. Frank L. Carlyle found a revolver on the public highway through Smeltzer Thursday. It is very slightly rusted, but is in good working order.

Mr. A. Gans has purchased the bicycle of W. G. Russell and has quit walking. Saturday he took the morning train to Los Angeles to keep a business appointment.

Cliff Hunt was initiated into the Modern Woodmen at Wintersburg Wednesday night. He complained of being very tired next morning, but says it was to him a most interesting session.

Miss Georgia Boehme has tendered her resignation as local "Central" of the Smeltzer Home Telegraph and Telephone Co., same to be effective and date from February 1st, and will return to the home of her parents at Santa Ana where she will devote her time to the study of music.

The gas works of the Golden West went dead Tuesday night and again on Wednesday night, and on Thursday Frank L. Carlyle put in the entire day hunting for and remedying the trouble. At length he found the pipes full of water and since draining them everything in the gas line is all right.

Among the recent foreign dispatches is mentioned a scheme to tax electricity. Apropos of this, there is being levied a local tax on wine. The Italians and Japanese have been shipping wine in by freight for their personal consumption, but lately they have had bad luck in that when they came for their keg next day it was gone. Now they ship it in by express and at a higher cost make sure that they and not the "Gang" get the big drunk on.

Mrs. G. L. Miles has been on the sick list for the past week, but is reported better today.

Will Sharratt was a visitor to Los Angeles Saturday night, but, as the rain stopped Sunday morning, he returned to Aliso and loaded out a car of celery.

Harry Woodington was a business visitor to Santa Ana Monday.

Mr. and Mrs. H. S. Hazeltine are expected to return from the northern districts today where Mr. Hazeltine has been looking after the interests of the California Vegetable Union.

Harry Woodington, superintendent of the Golden West ranch, says he will have cabbage ready to ship some time during February. He has been troubled some with aphids on the plants, but has been spraying them, and the plants are looking fine.

L. White has been ill with the grip for some few days but managed to get into Pasadena Sunday and spent a very pleasant day with friends there.

Mrs. R. E. Larter has been quite ill for some days past, but is reported as being safely on the road to complete recovery.

NINTY ORANGE TREES NOT ACRES

After Some Wandering Berrydale Finds His Solution Was Unnecessary

MUCH LAND BEING BROKEN FIRST TIME

Travelers on Way to Imperial Stopped on Berrydale Avenue

(By D. W. McDannald.)

BERRYDALE, Jan. 12.—I read in one of our local exchanges not long ago, of a rancher near Anaheim who was grubbing out ninety acres of two-year-old orange trees. That item has caused me a great deal of loss by leakage in my mind tank. I have sat up nights, and missed several feeds in the day time trying to figure a reason why any man with reason should dig up so many of nature's choicest products, golden gems, that turn the waste places into the alchemist's pot of gold.

It seems possible this man had an underground wire that gave him advance information of the orange industry, and like the chili and sweet potato crops, was overdone. This thought struck me as the correct solution of the problem, for about twenty years ago, a man much versed in the affairs of man, told me confidentially that the orange business had then reached its limit, and the next few years would see the fruit rotting under the trees. Something like 2000 years ago some one prophesied a "horseless carriage," and the prophesy is just now being fulfilled in our modern "honk" machines. Cycles of time are so difficult to calculate with certainty that I concluded this was just about the year for the orange industry to adopt the role of a living skeleton. After consuming enough gray matter to run a legislative session, I drove to the place today, and found there were just 90 trees being removed. If I had gone up to the winery, as the fellow did who penned this article, perhaps, I too, would have looked at them through a glass—inverted.

"An Oregon paper states that Senator Jonathan Bourne is 'a man without common ability.' It is perhaps unnecessary to state that he is also a Populist."—Los Angeles Times. Whoa, Marlar! Now wouldn't that jar you. General, have you forgotten that it was "Jonathan" who offered a thousand dollar bill for the party, be it "He," "She" or "It," who would write the best article on "Why the Republican party should remain in power another four years?" Gosh darn it, General, don't dump "Jonathan" onto the poor Populists. They have more of that kind of cargo now than they can carry.

Virgin Acres Stirred

There is a greater acreage put to cultivation this year than any season since Orange county got on the map. Over near Los Alamitos the big pasture lands of the Sentons and the Hellmans are now being stirred by the plow for the first time and many virgin acres will be invited to join with the already tilled areas in producing a bumper crop in this year of our Lord, 1909.

Today Mrs. L. I. Wolfe sold ten acres of her home to Silas Johnson, a very recent arrival from Ukiah, Mendocino county. Mr. Johnson was on his way with his family to the Imperial country. Mrs. Johnson is a woman of a discerning turn of mind, and when they turned down Berrydale avenue, with many lovely flowers, close cropped lawns, and inviting shade trees, she said to her amiable spouse: "This looks like Paradise in the books, lets unpack." And they did, for a consideration of \$2000.

E. J. Mallory, Rex McDannald and Clark Levegood left by team this morning for Barstow. They go by way of Pomona, Cajon Pass and Victorville, and expect to make the trip in about five days, barring accident and bad weather.

An Extraordinary Offer

THE GREATEST EVER MADE BY ANY NEWSPAPER

Three Great National Magazines

ABSOLUTELY FREE

For Old and New Subscribers

BUSINESS men advertise—frequently they make tremendous sacrifices to attract new customers. We believe in this policy, and practice what we preach by doing something each year to attract new subscribers and to favor our old readers who are entitled to an occasional good thing.

After pending several months in search of a premium, we finally decided we could not offer a better or more useful or attractive premium than a combination of high-class home magazines, and chose "World's Events," "Home Herald" and "Vick's Magazine" on account of their high character and literary quality.

We do not hesitate to say that we regard our offer this year to be the most extraordinary ever offered by any newspaper in this vicinity. We offer these three magazines in connection with a new or renewal subscription to our own paper on such favorable terms that we do not see how it is possible for a single reader not to take advantage of it. We want you to read every word of this announcement. Read the description below of the three magazines. Read the terms of our offer and accept at once.

World's Events

"THE WORLD'S NEWS AND THE WORLD'S VIEWS"

World's Events is a modern magazine of current thought and action, issued on the first of every month and profusely illustrated. It contains the world's news and the world's views covering every important event of social, scientific, political and educational character. The latest discoveries in science and invention, commerce and industry are noted in its pages, illustrated and discussed. The larger features of the month are treated in feature articles by experts, while the smaller happenings are condensed and classified and presented in an interesting and telling manner. Side-lights on celebrities, the current stories and anecdotes of the great and near great, are scattered through its pages in a way that makes these characters real and interesting to the general reader. Those who wish to know the trend of world history and world thought without reading hundreds of papers may do so easily through the assistance of this magnificent publication. It contains the best thought of the day on the problems of the age.

World's Events is absolutely spotless on every page and will not accept any of the undesirable advertising which makes most of the current magazines objectionable for family reading. It is the ideal monthly for the home. It has 36 pages with cover in colors.

Home Herald

"A PAPER WITH A PURPOSE"

The Home Herald is an independent family weekly of twenty pages, fully illustrated. It is one of the most reliable, popular and influential publications in existence. It has an enormous circulation all over the world and it has probably a larger percentage of subscribers who renew their subscriptions year after year than any other weekly journal.

The beautiful covers in colors are prepared by well known artists. Its fearless editorial treatment of current events and its feature articles by men prominent in public life make the Home Herald indispensable to those who desire to keep in touch with public opinion affecting great issues and problems in the home.

Among some of the well known contributors in recent numbers have been Wm. Howard Taft, William Jennings Bryan, James S. Sherman, Governor Hanly of Indiana, Governor Folk of Missouri, Dr. Washington Gladden, John Balcolm Shaw, Charles M. Sheldon, Booker T. Washington, John V. Farwell, Bishop Samuel Fallows, G. Campbell Morgan, John C. Havemeyer, President Blanchard and Dr. A. C. Dixon.

Judge McKenzie Cleland who has been a subscriber for fifteen years has recently said:

"Of all the papers that come to my house, the Home Herald is one of the brightest and best and most highly prized. My children are always eager for it and we all like it and feel that we could not do without it. I enjoy a paper that dares to be original, independent and fearless."

Vick's Magazine

"A PERIODICAL OF PROGRESS"

Vick's Magazine, founded in 1878 by the eminent pioneer seedman and philanthropist, James Vick, has ever been the leader among the publications of its class. It is essentially a home magazine and maintains that direct personal interest in its subscribers, in the same way that its founder did over thirty years ago.

Vick's Magazine is distinctively a "Booster Magazine," boosting every good thing worth boosting. Therefore, the chief aim of Vick's is to show how the graces of human nature may best be cultivated by giving in cheery and breezy narrative, story or verse, interesting exhibits of good things that may be done in the cultivation of a light heart and a happy good nature.

Vick's Magazine has some very special numbers coming, among them: "The Enjoyable Farm Home," "The Orchard Bountiful," "The Home Garden," "The Country Beautiful," etc. All this matter by the most renowned writers in the United States.

Vick's Magazine has a real, positive and practical value to its subscribers. Through its many departments, in charge of a corps of capable editors, it reaches every interest of the home. Notice the following interesting departments: Floral, Garden, Household, Clever Ways of Doing Things, Fashions, Dressmaking, Fancy Work, Home Building, Question Box, Poultry, etc. Vick's Covers are in two colors, 36 pages, printed on good stock.

DALTON NOW STREET MAN

Resigns From Board—Buchanan Chosen to Fill the Vacancy

The city trustees met on Monday evening and transacted routine business, receiving the report of the city clerk for December and allowing the usual bills.

R. C. Dalton presented his resignation as city trustee and S. R. Graham presented his as street superintendent. Both were accepted. G. W. Buchanan receiving the most votes was sworn in as a member of the city board. R. C. Dalton was appointed street superintendent to fill the vacancy of S. R. Graham, resigned.

The street superintendent was instructed to put in graveled crossing on Glassel street from the plaza to La Veta avenue.

The city attorney was instructed to draft an ordinance providing for a poll tax of \$2 on every male citizen for funds for street purposes. The draft of the ordinance is to be ready for the next meeting.

Geo. S. Harper, manager of the Y. M. C. A. Basketball association, asked for special police to prevent rowdiness, etc., at games. The matter was referred to police committee with power to act.

A PRETTY AFFAIR FOR A BRIDE-TO-BE

An extremely pretty affair was the shower given last evening by Miss Lulu Kenyon in honor of her friend, Miss Laura Smith, who is to be married soon.

The rooms were beautifully decorated in asparagus fern with white and pink carnations, draped from the curtains and festooned in the draperies of the archway. Little cupid peeped out here and there enjoying the pretty scene and lending their delicate beauty to the brightness of the rooms.

Hidden all about the rooms were packages containing gifts for the bride-to-be and while Miss Niles played the piano, first loud, then low, as the hunter was nearer or further from the parcel, Miss Smith searched for the hidden gifts. These gifts were of linen, china and pictures and Miss Laura, as well as the other guests, most thoroughly enjoyed the unteasing and opening up of the parcels.

Envelopes were then passed among the guests, which upon being opened disclosed hearts, each heart containing a word. These words, fitted to words on other hearts, told fortunes of the guests of honor.

Cards were passed on which each wrote her guess as to when the wedding was to be and on Miss Smith's, which was read last, was the true date, which to the surprise of all proved to be Thursday next.

The table was beautifully decorated in the prevailing colors of the evening and at each place was a dainty bouquet of asparagus fern with white and pink carnations. Fruit salad with whipped cream, candied cherries and various kinds of delicious cake, were served, forming a fitting finale to a perfect evening of enjoyment.

PAYS DEBT BUT GIVES NO NAME

Says It Is For Amount Due of Which There is No Record

On January 11 Ehlen & Grote received an envelope such as ladies use from Los Angeles containing two one-dollar bills and these words: "Amount due you of which you have no record." It was written in disguised "back-hand" writing, only one letter, that of "G" in Grote, giving it away. The supposition is that it was "conscience money" for an article confiscated at some time in the past.

ROYAL NEIGHBORS HOLD MEETING

The Royal Neighbors held their regular meeting this afternoon in Odd Fellows Hall. One new member, Mrs. P. I. Bird, was initiated. Following the work an oyster dinner was served in the dining room, presided over by Mrs. Potter, Mrs. Evan Davis and Mrs. Dalrymple.

This organization has such jolly good times together that their regular meetings twice a month do not suffice, but they sandwich one extra social one in between times at the members' homes.

FINGER HURT IN SEWING MACHINE

Mrs. O. E. Gould met with an exceedingly painful accident yesterday morning. She was oiling her sewing machine and caught the middle finger of her right hand, bursting open the ball of the finger and crushing it at the same time.

The accident, though exceedingly painful, will not be very serious.

PERSONAL

Mr. Bird, of the Orange book store, was called to Mt. Union, Iowa, an account of the serious illness of his mother. He expects to be gone a month or six weeks.

Leon Shadel and Herbert Sutton have been spending a couple of days hunting in the canyon. They succeeded in bagging quail, but these elusive birds were not out in great numbers.

Mrs. W. A. Jackson with her little daughter, Thelma, is spending the week with her mother, Mrs. Rose of Villa Park while Rev. Mr. Jackson is attending the Presbytery in Los Angeles.

The two nephews of Mr. Weiss from the east who have been spending some time in Orange left yesterday to see more of California.

Misses Iva Reeves, Edna Wright and Minna Bell returned to their normal duties this morning.

Mrs. Sheehan, who is stopping with the Wallaces in Orange, is quite ill with what threatens to be pneumonia.

The Modesty of Women

Naturally makes them shrink from the delicate questions, the obnoxious examinations, and unpleasant local treatments, which some physicians consider essential in the treatment of diseases of women. Yet, if help can be had, it is better to submit to this ordeal than let the disease grow and spread. The trouble is that so often the woman undergoes all the annoyance and shame for nothing. Thousands of women who have been cured by Dr. Pierce's Favorite Prescription write in appreciation of the cure which dispenses with the examinations and local treatments. There is no other medicine so sure and safe for delicate women as "Favorite Prescription." It cures debilitating drains, irregularly and female weakness. It always helps. It is almost always cures. It is strictly non-alcoholic, non-secret, all its ingredients being printed on its bottle wrapper; contains no deleterious or habit-forming drugs, and every native medicinal root entering into its composition has the full endorsement of those most eminent in the several schools of medical practice. Some of these numerous and strongest of professional endorsements of its ingredients, will be found in a pamphlet wrapped around the bottle, also in a booklet mailed free on request, by Dr. R. V. Pierce, of Buffalo, N. Y. These professional endorsements should have far more weight than any amount of the ordinary lay, or non-professional testimonials.

The most intelligent women now-a-days insist on knowing what they take as medicine instead of opening their mouths like a lot of young birds and gulping down whatever is offered them. "Favorite Prescription" is of known composition. It makes weak women strong and sick women well.

Dr. Pierce's Medical Adviser is sent free on receipt of stamps to pay expense of mailing only. Send to Dr. R. V. Pierce, Buffalo, N. Y., 21 one-cent stamps for paper-covered, or 31 stamps for cloth-bound. If sick consult the Doctor, free of charge by letter. All such communications are held sacredly confidential.

Dr. Pierce's Pleasant Pellets invigorate and regulate stomach, liver and bowels.

ENTERTAINED AT WEEK END PARTY

The Misses Stella and Lillie Stanley entertained with a house party at their home in Villa Park over the week's end. Their guests were the three Misses Dickey, Mr. Hawkins and Mr. Dickey of Pasadena and Mr. Gillespie of Riverside. A delightful time was enjoyed by all and Sunday evening came all too soon. The Misses Dickey are teachers in the public schools of Riverside.

GUM TREE GROWERS GLAD IT RAINED

The eucalyptus growers all over the country are congratulating themselves over the splendid rain. The natural moistening of the ground in this way is much better for the trees than artificial irrigation, particularly when the trees are very young and this rain has come just in the nick of time to do the most good.

HORSE TOOK RUN ALONG THE STREET

Mrs. W. D. Granger had quite an exciting runaway on Monday last. The horse ran down toward the depot, kicking and breaking the shaft in two or three places and finally stopped near the station. Mrs. Granger pluckily held to the reins until the horse was finally checked in his wild career.

Turkey Dinner

Mr. and Mrs. N. U. Potter entertained at turkey dinner on Sunday last. The guests were Mr. and Miss Voemans and Mr. and Mrs. Struck and family. Needless to say, the dinner was most delicious with so good a cook to get it up, and the guests showed their appreciation of the social time by remaining till a late hour.

A Good Christmas

Word received from Carey Stanley of Escondido tells of a happy Christmas spent with Mr. and Mrs. Thomson at a tree loaded with good things. Mr. Stanley is improving in health and strength in the open-air work among the eucalyptus trees and hopes of his complete recovery are entertained.

Gave a Social

The Fraternal Brotherhood gave a pie and pound social at Odd Fellows' hall. Each lady brings a pie and each man a pound of something eatable. The amassing result will be something wonderful without doubt.

Extending Juvenile Court Idea

Another advance in the juvenile court idea is marked by the opening of houses of detention in Chicago and Philadelphia, constructed on similar plans and following the same principle—that it is better and cheaper to prevent crime than to punish it.

The buildings look like private residences, and inside the effect is that of a club. On the ground floor is the juvenile court, as much unlike a court-room as possible, a dining room and several detention rooms. On the other floors are dormitories, school-rooms, playrooms, work shops, a dispensary and a gymnasium. The roof is a garden and playground.

These buildings will serve as models for others throughout the country. Chicago copied from Philadelphia, but completed her detention home first. The investment in Philadelphia amounted to \$165,000. It is impossible to estimate the saving that such an institution effects, but in dollars and cents it is doubtless many times the original cost.

Boys and girls whose surroundings have been criminal are awakened to better things before it is too late. In many cases it is known to be a fact that the kindly influences of the juvenile court have turned boys from a life of wrongdoing that would have inevitably been expensive to the state.

SEASON ENDS ON TOMATOES

Vegetable Growers of La Habra Reported Satisfied With Receipts

Placentia Woman Found Her Poultry Yard Paid Well in 1908

FULLERTON, Jan. 12.—The Vegetable Growers' Association of La Habra Valley has just closed a successful season on tomatoes. A large part of the crop was sold at \$40 per ton, delivered at the packing house in that valley, and was handled by the association at an expense of only 1 per cent.

Mrs. E. L. Lang of Placentia believes there is good money in the poultry business. She had 105 hens and four cockerels, all Rhode Islands, January 1, 1908. During the year 944½ dozen eggs were sold for \$233.90, and the chickens brought in another \$68.07, making a total income of \$301.97. The feed expense was only \$86. Mrs. Lang now has about the same number of chickens she commenced with.

The Brea Canyon Oil Company has well No. 24 down 1900 feet, with good indications for oil.

Supervisor Linebarger has exchanged his handsome residence on West Commonwealth avenue for ten acres of the A. Block orange and walnut orchard east of town.

Stern & Goodman have sold the Tritt twenty-acre improved place in Placentia to a newcomer for \$16,000. The Orange Oil Company has received a carload of casing to use on its new oil well near Brea Canyon.

Albert Wickenhauser of Portland, Ore., is a guest of J. G. Launer of La Habra.

The California Vegetable Union is enlarging its packing-house here, and is getting ready to handle the large cabbage crop of this section.

A Motor on Trial

One of the beauties about individual electric MOTOR DRIVE is this: You don't have to start out with a lot of expensive equipment and run the risk of getting "stung." You can try a single motor at little expense and no inconvenience.

Study it, watch it work, tabulate results. From it you can learn just what a complete installation of motors will mean. Most people who start with one motor end with a complete electrical equipment, and become enthusiastic converts to electric power. If they find it profitable to use individual motor drive, might not you? Why not install a single motor and form your own opinion?

IMPORTANT ENTERPRISES
There are at least two important enterprises under way in this county—important to every citizen of the county.
We refer to the proposed increase of the capital stock of the Santa Ana Valley Irrigation Company, in order that money may be obtained for an increased supply of water; and to the proposed drainage district for lands lying immediately south of this city.
In a general way, touching both of these propositions, the Register desires to urge those whose votes will determine their fate to consider them carefully and conscientiously. Such propositions should not fail of support, nor should they be carried, on any basis of sectional or individual interest. They are community propositions and should be defeated or carried on their merits as related to the greatest good to the greatest number, AND THAT IS ALWAYS THE GREATEST GOOD IN THE LONG RUN TO EVERY INDIVIDUAL.

With regard to the drainage district, the universal testimony of those who have had experience with lands like those proposed to be drained is that ditching and tiling doubles and even quadruples their value, their productivity.
As to the proposed increase of the capital stock of the S. A. V. I. Co., it appears from authoritative statements made at the meeting of the stockholders of this vicinity at the city hall Saturday afternoon, that an increased water supply is an imperative necessity and that it cannot be secured in any other way so readily and simply and economically as through the proposed increase of capital stock.

These facts were brought out:
1. The land needed for development of water is rapidly enhancing in value. A few years ago it could have been bought for \$60,000; more recently—about eighteen months ago—it would have cost \$125,000; now the owners want \$200,000 for it and the courts would probably award them nearly that much in condemnation proceedings. If it is not secured now it will cost more later on—AND IT MUST BE HAD.
2. Under present capitalization (\$100,000) sufficient money for the necessary development cannot be raised at all by assessment; nor by the issue of bonds, nor by borrowing, except at a higher rate of interest than ought to be paid—if indeed it can be raised at all in either of these ways.
3. To increase the capital stock as proposed would not mean more or higher assessments for operating expenses. If the capital stock is high the assessments will be low; if the capital stock is low the assessments will be high—JUST SO MUCH MONEY MUST BE RAISED.
4. The stockholders who are opposed to the increase of the capital stock to \$500,000 concede the necessity of further development of water, but contend that it is unnecessary to increase the capital stock to half a million dollars in order to accomplish the necessary development.
It would seem the part of wisdom and economy and good business to do whatever is necessary in order to purchase the water bearing lands and proceed with development.

MUCK-RACKING THE TARIFF
There is an announced intent, on the part of several enterprising magazines, to muck-rake the tariff. They will find material enough, as Ida M. Tarbell has already demonstrated. But they will also find themselves dealing with an issue whose dual nature they may not themselves realize. The protective tariff is an economic policy and a political scheme. Protection is the fixed policy of the American people, and even the academic are beginning to understand the justification of this policy. Anyhow, there is no prospect of changing it, and no good reason to do so. But protection, like all other forms of special privilege, has its relations to corruption. Protection is in the general interest, but a particular schedule is often enough procured for a particular interest by political methods not ideal. These methods deserve exposure, and any possibility of them (there is less now than ever before) should be eliminated from the pending tariff revision. But the revelations of the muck-rakers will lead to the

conclusion of purer politics, not of economic free trade. If protection is for the best interest of the country, we want it. If it has been accomplished by crooked politics, we want that stopped. There is no inconsistency between sound economics and sound morals, even if in some instances the alliance has been of sound economics with unsound morals.—The California Weekly.

AS TO THE THEATRE IN SANTA ANA

It was gratifying to see the opera house well filled last evening, and regrettable that the play was not better. Not that the play was as bad as it might have been. Indeed it was fairly good—some of it very good. We have seen better plays with less than one-third of last evening's attendance, but never worse plays with larger attendance—which is well.
The point we desire to make is, that good plays ought to be well attended, and if they were, always, the average of plays would be better and bad plays would, in time, be wholly eliminated. Wholesome entertainment is highly beneficial, both physically and spiritually, and good plays are very often—almost always—more than merely entertaining. By wise discrimination, and the exercise of a little public spirit the theatre in Santa Ana can be put on a higher plane—the average of plays raised, the character of audiences improved, and the playhouse made more comfortable and attractive.

MR. JACKMAN AGAIN DISCUSSES S. A. V. I. CO. INCREASE OF CAPITAL

Thinks \$200,000 or \$250,000 Would be Ample for All Purposes of Development—Insists on Revision of By-Laws Before Voting on Increase—Reviews Points of Saturday's Meeting

Editor Register:—At Saturday's meeting of the stockholders of the S. A. V. I. Co. many points of interest were brought out in the discussion of the different phases of the question under consideration. That which probably made the deepest impression was the fact, as brought out, of the immense amount of the debt of the A. U. W. Co., with her capital stock of over a million dollars, as compared with the indebtedness of the S. A. V. I. Co., with its capital stock of one hundred thousand dollars. Also the able elucidation of the proposed development by Engineer Kellogg was of immense interest.
Yet the stubborn fact continually faces us, that we are trying to build a magnificent irrigation system on an admitted "foundation of sand," so to speak. Stockholders, let us do the work asked of us, but do it as business men, beginning at the foundation. Let us be sure on this point, then we can go forward in the knowledge of being right and safe. Let us call into our councils corporation lawyers who will advise and direct us in framing a set of laws that will be constitutional and unassailable in any court. Let us also have our incorporation papers carefully scrutinized by competent persons, so as to be absolutely certain that we are right. Then, having arrived at this stage in our proceeding, let us ask our directors to call a meeting to vote on the adoption of the same, and also ask for a vote to increase our capital stock, not to exceed two hundred and fifty thousand dollars, preferably two hundred thousand, if sufficient amount of money can be

Stockholders, stand together. Let us settle this matter once and for all time BY SETTLING IT RIGHT.
One other point and I am through. That is the answer to my fourth question as to the cost of supervising the Durkee ranch. The answer was, "About twelve dollars," and all who were present at Saturday's meeting will remember my stating that as I remembered it from the reports it was three hundred and twelve dollars. This was vehemently denied. I submitted at the time that anything that was a matter of record was useless to dispute on, as the record itself was the best evidence. I here-with submit the record as taken from the Register. And the reports are official and are to be taken as correct, as the directors tell us there is where we can get our information, making the asking of questions unnecessary.
In the official report of the proceedings of the S. A. V. I. Co., dated at Orange, Aug. 29 (published in the Register of Sept. 2), immediately following the report of the superintendents of the Durkee ranch, appears the following:
"On motion the DEMAND of M. Nisson and Wm. Crowther, superintendents of the Durkee ranch, for three hundred and twenty and 45-100 (\$320.45) dollars was on motion allowed, and the secretary instructed to draw warrant for same."
I am yours for improvement and development, but always along safe and sane lines.

THROOP STUDENTS TO WORK FOR CITY
A Plan Has Been Conceived to Build up a Permanent Scholarship

That Throop Institute is progressing under the able guidance of President Scherer is evident from the progressive steps taken by that school of late. Among the latest were those recorded in yesterday's Los Angeles Examiner, in the Pasadena correspondence, as follows:
"A movement which will more closely link the town and gown in college towns of both Eastern and Western states, will be given an exhaustive test in Pasadena. The test will start tomorrow morning when four Throop students will take employment with the city. The work done in the city departments will be credited in the student's course.
"The test is made possible by an agreement reached between Mayor Earley and President Scherer of Throop.
"Thomas Thum, one of the members of the firm which has made millions in the manufacture of sticky fly paper, conceived the plan, which embodies a scholarship fund from which the salaries of students will be paid and sufficient work will be divided up among the students to enable each to pay his way through college.
"Another announcement was made this evening which will enlarge the curriculum of Throop, putting it on a par with the Massachusetts Institute of Technology, and in advance of all other mechanical institutes in the west.
"Throop Institute will send President Scherer on a tour which will include Wisconsin University, the M. I. T. and the Stevens Institute at Hoboken. He will meet Professor George E. Hale of the Mt. Wilson Solar Observatory in New York, and on April 10th the two will sail for Europe to attend several scientific gatherings and visit all the scientific colleges and universities of note. New ideas for Throop will be gained which will be incorporated in the curriculum. President Scherer will in the meantime revise the curriculum of the Throop Academy, robbing it of its general character and making it purely a training school for the Throop University.

"Although but four students will begin work in the city departments tomorrow, others will be substituted in the plan to give all an opportunity to earn their way through school. Two will be put to work at the Municipal electric light plant, under supervision of the engineer in charge. They will run the plant. One other will start to work as assistant in the plumbing and building inspector's office and the other will assist in the extension work of the plant.
"The electric plant will be turned over, in addition to this, as an experiment station and professors of applied electrical science will be given free use of the plant as an instruction room for their classes."

has no "patent process" for success in FARMING or in BUSINESS. We have noticed that sometimes a hit or a "streak of luck" has opened wide the door to success, but we have found the safest plan to be that ever present duty on the old farm—"way down east—we just DUG, and we are still digging, albeit the digging is easier and it don't take so long to fill the basket as it did, when long years ago we first began to dig, and there is fun in digging.
A short time ago a young man complained that there is "no chance these days" for him and no opening in sight; while we noticed that he wanted to begin where the Old Man left off, and there's the rub.
If the young man of today will do well what he finds to do and does not put in too much time watching the clock, he will find the door to success has the latch string on the outside.
Whether you buy or sell, give every one a square deal.

Mission Circle Meeting

The Young Girls Mission Circle met yesterday afternoon at the home of Mrs. G. P. Hill, with Miss Zella Guley as leader. The subject of prison missionary work was under consideration.

Form New Travelers Club

The young ladies of the Ebell met yesterday with Mrs. W. L. Tubbs, general curator, and organized a Young Ladies' Travelers Section.

Miss Gertrude Montgomery was chosen leader, Miss Vera Heathman, assistant leader, and Miss Fanny Smart, secretary. Stoddard's lectures will be studied.

The next meeting will be with Miss Georgia Barnes on Wednesday, January 27.

A Wedding Anniversary

Mr. and Mrs. Lea Warren celebrated their twenty-second wedding anniversary, which occurred yesterday, by inviting a number of friends to spend the evening with them. Various amusements, with conversation and the serving of delicious refreshments combined to make the event a pleasant one. A beautiful gift was

presented to Mr. and Mrs. Warren as a souvenir of the day, Rev. Samson making the presentation in behalf of the company.

Those present were Rev. and Mrs. W. L. C. Samson, Mr. and Mrs. John McFadden, Mr. and Mrs. William Smart, Mr. and Mrs. J. E. Kellogg, Mr. and Mrs. Leigh Galloway, Mr. and Mrs. Geo. R. Smith, Mr. and Mrs. James Patterson and daughter, Mr. and Mrs. C. G. Ramsey.

Household Economics

The Household Economics Section will meet with Mrs. M. L. Van Cleave, 317 Halesworth street on next Friday afternoon. A demonstration of two kinds of oysters, creamed and spiced oysters, will be given.

Mr. and Mrs. G. P. Hill went to Los Angeles today to attend the State Baptist convention.

Miss Rosa Boyd was in the City of the Angels yesterday to attend the star benefit given for the Italy earthquake sufferers.

Mr. and Mrs. R. S. Marple attended the dramatic benefit given at the auditorium yesterday for the quake sufferers in Italy.

Entertained the Waffles

Mr. and Mrs. Charles Waffle, who have been here since before Christmas, and who leave for their home in El Centro tomorrow, were entertained last evening at dinner by Mr. and Mrs. Mark Lacy.

Modjeska's Wonderful Voice

Of Madame Modjeska's appearance yesterday in the great earthquake benefit held at Simpson's Auditorium yesterday afternoon, the Examiner said this morning:

"The voice of Modjeska, a voice which has thrilled the world and holds its spell as of yore, was heard again and for the last time on the stage. In the sleep walking act of 'Macbeth' her utterance has the pathos of death in it. Tears rolled down the cheeks of Madame Gaski, who was sitting in one of the wings, as she heard the vibrant, tragic tones of the woman whose name and genius are emblazoned in the history of the stage.

The audience knew from the program and the stage setting that Madame Modjeska was about to appear. Her assistants, Miss Lovell Taylor and Ernest Phillips, heralded her coming in their lines and then, once again and she announces, for the last time, the wonderful tragedienne was heard. Time has not diminished her power and it was the Lady Macbeth that theater-goers in the capitals of the world heard a score of years ago.

Reception Postponed

Owing to the unfavorable weather, the reception to have been given to-night at the Congregational church for Rev. Chas. H. Secombe and family, has been postponed one week.

Art Study Club

The Art Study Club held a social meeting Tuesday evening at the residence of Mr. Victor Montgomery, 210 East Walnut street. About twenty-five members and their friend assembled in spite of the inclement weather and passed a very pleasant evening. Mrs. Montgomery and Miss Gertrude most charmingly received their guests and made all feel the atmosphere of their cordiality.

Miss Gardner and Miss Rice provided for entertainment, sliced pictures. These were to be matched by the color scheme, and when completed each group was requested to write a poem, taking for the subject the picture thus made. The best poem was selected by ballot, the choice falling to the group represented by Miss Eva Cole. A bunch of violets was given Miss Cole in recognition of the group success.

Refreshments were served on individual trays, and after a few minutes devoted to business the club adjourned to meet with Miss Cubbison, January 26, instead of the regular date, Jan. 19.

The Society for the Prevention of Cruelty to Animals held its annual meeting last night, and officers were re-elected as follows: President, J. C. Joplin; vice president, Frederick Stephens; secretary-treasurer, G. A. Whidden; officer, Constable C. E. Jackson.

Since last July the society's officers have investigated thirty-nine cases of cruelty to animals, and fifteen horses were killed to put them out of misery. The society has been doing a good work, quietly but effectively.

CHAUFFEUR CLAIMS TAYLOR IS THIEF

Clyde Taylor, who was taken from the county jail here to Los Angeles, is to be tried in Los Angeles on Feb. 5 on a charge of petty larceny brought by William Mountain, a chauffeur, who says Taylor hired him to take him to Santa Ana, last October, where he said his wife was ill in the hospital. They made the trip, and, when on the way back to Los Angeles they stopped at Watts. Then Mountain alleges, Taylor ran away across fields where he could not follow him with an auto, carrying with him an overcoat and cap, which he had borrowed from the chauffeur. Taylor denies the charge.

Montana Land Co. Has Plowed and Seeded a Large Acreage

LOS ALAMITOS IS PLANTING ITS CROP

Factory Will Turn Out An Additional Million Pounds of Sugar

LOS ALAMITOS, Jan. 12.—Instructions have been given by the Los Alamitos sugar factory to seed for beets as fast as the ground can be gotten into condition. As the timely rains have been most favorable for field work all the beet ground on the Montana Land Company ranch has been plowed and several hundred acres seeded.

The Bixby Land Company has winter irrigated nearly all its beet land, retarding somewhat the work of planting.

At Buena Park work is proceeding most satisfactorily on the McComber ranch. The 450 acres on the Allan ranch is all plowed and considerable acreage seeded, which is already up and growing nicely.

Seed is now being shipped to the

Peatlands for planting for this factory.

Many carloads of sugar-beet pulp are now being shipped to dairy ranches, some as far away as Redlands, at the price of \$1 per ton.

The factory is still running on the secondary process, by which it is expected that about an additional 1,000,000 pounds of white sugar will be made from molasses left over from the run on beets.

H. J. Small of Oconto, Wis., has moved his family here, and has taken a position with the sugar factory as assistant field superintendent.

DON'T STARVE THE STOMACH TO CURE

There Will be No More Stomach Trouble if You Will Take a Little Diapiesin

—Miserable indeed is the man or woman whose digestive system is unstrung—who goes to the table and can not eat or what little is eaten seems to fill them and lays like a lump of lead in the stomach, refusing to digest.

If you, dear reader, suffer this way and will put on your wraps now and get from your pharmacist a 50-cent case of Pape's Diapiesin and eat one 22-grain Triangule after your next meal you would appreciate, five minutes later, how long you suffered unnecessarily.

There will be no more indigestion—no misery in the stomach—no sour risings or belching of gas, no heartburn, flatulency or eructations of undigested food and acid or feeling of nausea, fullness, headache or other symptoms of a weakened stomach. Stomach trouble and indigestion vanish like snow before the blazing sun.

When Diapiesin works your stomach rests—gets itself in order. Diapiesin purifies and sweetens a sour stomach and freshens the intestines without the use of laxatives, and what is more, it increases the gastric juices. This is what your stomach is begging for—more and better digestive juices. That is what makes you hungry and want to eat, and you can rest assured what you then eat will be taken care of properly and not left in the stomach to ferment and turn to gas and acid, and poison the breath with nauseous odors.

Get a 50-cent case from your druggist now—you ought to have Diapiesin about the house always. Should one of your family eat something which does not agree with him or her, or for a sour stomach or excessive gas, one triangule will always give immediate relief.

AMUSEMENTS

A Stubborn Cinderella

There is a magnetism and an intelligence about the performance of Mr. Mason, who plays "Mac," a college boy prince who woos and wins the Cinderella of that most captivating and delightful of musical comedies, "A Stubborn Cinderella," which is hard to resist. His sincerity in the serious moments developed through his love affair with Cinderella is unquestioned. But on the other hand, his comedy is equally earnest and equally capable. The sentiment of clean manliness of the impregnated instinct of the decency and class which is imbued among all the young college boys and girls who are the heroes and heroines of the play is shown most attractively by this instance.

The hero, an irresponsible college youth, feels bound to terminate a flirtation with the heroine, a Scotch young lady of title but little experience.

Homer B. Mason in "A Stubborn Cinderella"

ence in the ways of the world, so he tells her the story of Cinderella and the Fairy Prince who disappears at the stroke of twelve, leaving her with only the memory of her happy dream. The scene at which this takes place is by an open fire in the midst of a big desert of the far Southwest, and with its realistic settings and its open fire, together with Mr. Mason's boyish earnestness, his costume of knee breeches, long curls and brocaded suit and vallet of Watteau Shepherdesses, form a combination which is not only unique, but far above anything else ever offered in musical comedy. This great play will be here Jan. 21.

LOS ANGELES PRODUCE MARKET

One of the largest consignments of Hawaiian pineapples that has been received in Los Angeles for months arrived yesterday morning via San Francisco. As a result, the market on the pines declined almost 2 cents a pound. Best quality are selling for 6½ to 7 cents. The fruit was in good condition when received. There was little rot apparent, nor had the apples been frozen in transit, as occasionally happens. Bananas, the other tropical fruit best known here, were very plentiful, and there was considerable rate cutting on the street in order to move the superfluous fruit. Some bananas sold as low as 3 cents a pound, and in the retail stores and on stands they brought 10 cents a dozen.

Eggs were in fair demand, and case-count were well sold. The market on them declined a cent, but this was entirely due to the endeavor of one or two dealers to unload some of the stock they had no actual orders for. Canned naturally came down the same amount. Arrivals of local eggs were 109 cases. The market on storage eggs was very firm, and with eastern fresh, prices prevailed the same. Butter was exceedingly quiet. There were no offerings on 'change, and on the streets sales were reported as being light. There were no alterations in quotations. Receipts were 19,987 pounds.

No cheese arrivals were reported. Offerings consisted of northern full cream, fresh and storage, Swiss imported, Daisy and cream brick. Several small trades were carried through. Potato receipts were 5823 sacks. With this heavy arrival, the strong market showed a little weakness, and several of the dealers, who were forced to move their stock in haste, sold under present jobbing prices. On 'change, Highlands were the heaviest among the offerings.

Again the onion market took a concerted rise. Every quoted variety advanced to a flat \$2 per hundred, and at that figure there were several reported sales of Australian Browns. Total arrivals were 842 sacks, which helped to fill the steady demand for them.

Beans received little attention on the call, and only pinks and Lady Washington were placed on sale. Arrivals were only 5 sacks.

Sweet potato receipts were 177 sacks, and the market on first-class stock, not touched by dampness, was up a few cents on the street. There were a number of sales of small size on the street.

Smith elder and Bellefleur apples were the varieties which received the main attention of buyers yesterday morning. Prices were steady. Northern arrivals were 1512 boxes.

Rain had the effect of killing the retailers' demand in fresh fruits and vegetables. Arrivals in those lines were not as large as usual, but adequately filled the smaller call, leaving in addition a surplus which may spoil within a day. Strawberries moved up on account of the impossibility of packing in wet weather. The best price prevailing was 10 cents a box. Beans and peas were firm in the vegetable line.

LA BLANCE IS INVESTIGATING

Thinks He Has Something Worth Referring to Guardian of Indian

At San Juan Capistrano He Found Fourteen Redmen Families

J. W. La Blance, the Umatilla Indian who has been traveling over California making an independent investigation into the condition of the Indians of the state, claims to have discovered two or three irregularities in land deals at San Juan Capistrano whereby families of Indian blood have lost their holdings, and he says he is going to ask the Federal government to make an investigation into some of the matters of which he has heard. Whether or not he can gain anything, whether or not the information given him will bear him out in his conjectures, he does not know, but he says he is going to see what can be done. He will carry on investigations of his own. Today he was at the courthouse making inquiries. He has with him an envelope with documents turned over to him. When asked if he had not best turn his claims over to an attorney to look up the record, that some of the Indians now dead undoubtedly relinquished all claim to the lands in question without the knowledge of Indians now living, La Blance said he would make his report at the next national conference and let it go at that.

One of the matters he has in hand, the Manriquez holdings, has already been settled in court. In that case it was shown that the claims were groundless. The chances all are that the matters La Blance has in hand will turn out equally without foundation.

La Blance has in his possession a will of Juan Perez, an Indian who died some years ago. He says the will has never been probated though the widow has had it in her possession.

sion. There is a piece of property at San Juan Capistrano that Perez once claimed. It is mentioned in the will. La Blance takes it as conclusive that Perez must have owned the property, and that if he did own it he could not have disposed of it between the time of writing the will and the time of his death. He expects to make a report of conditions of Indians in various parts of the state to the next Indian conference, which will be held in April.

La Blance spent two weeks at San Juan Capistrano, and says he located fourteen or fifteen families there. Most of these families, he says, have passed as of Mexican descent, but he says inquiry developed the Indian ancestry. He has hopes of getting some of the Indian children into some of the Indian schools. While there is a good public school at San Juan Capistrano, some of the parents have neglected sending their children there, and he does not expect to be able to locate many of the children in Federal schools for the reason that the school authorities prefer to help children who have no opportunity to attend public schools.

"The Indians at Capistrano," said La Blance, "are in better condition than a large majority of Indians over the state. They are rid of their superstition, they have good homes, beds and food, and many of them are registered voters."

La Blance will deliver a lecture at the corner of Fourth and Main streets tonight at 7:30 o'clock. He will discuss Indian affairs. La Blance went to the Carlisle Indian school.

ROOSEVELT IS TAKING 90 MILE TEST RIDE

FAREWELL TO FORAKER;
ENTER THEODORE BURTON
COLUMBUS, Jan. 13.—Theodore E. Burton of Cleveland was elected United States Senator today to succeed Senator Foraker. He will serve with Senator Dick.

TALE OF SHOT TOLD AGAIN

Three Witnesses Have Gone on Stand Against G. G. Southern

The story of the firing of a shotgun by G. G. Southern at A. J. Langto has been told on the witness stand in the trial of Southern in the Superior court, by three witnesses, A. J. Langto, Sherman Buck and Mrs. Florence Buck. Their testimony was the same as they put in at the preliminary hearing. Southern having come home and shot at his wife, Mrs. Southern telephoned to Mrs. Buck for help. Langto, Mrs. Buck and Buck drove to the house. Southern came out and after a few words he suddenly fired at Langto, who was sitting in the buggy, barely missing his head.

The twelve men trying Southern are J. E. Warner, A. Henry, W. H. Graser, G. W. Gwyn, Perry Woodward, J. W. DeLong, J. T. Bush, W. J. Cole, W. G. Wells, E. Grisct, S. O. Walker and Morris Smith.

FORAKER ASKS DETAILS OF ALL EXPENDITURES

WASHINGTON, Jan. 13.—Upon motion of Senator Foraker the senate yesterday adopted a resolution directing Secretary Cortelyou to report to the senate in detail all expenditures from the three million dollar emergency fund. From that fund it is known that \$15,000 was drawn to pay the detectives in the Brownsville case. Senator Foraker charges that the money was spent illegally in that direction by President Roosevelt.

AND TILLMAN, TOO, WILL CAMP ON TEDDY'S TRAIL

WASHINGTON, Jan. 13.—Senator Tillman yesterday gave notice of his plan of warfare on the president. He said: "I am going after Roosevelt just as he has gone after me. I hope to get the same kind of evidence he has procured against me." Tillman declined to make a more definite statement.

QUAKES SEVERE ON SAN JUAN ISLANDS

Other Shocks Are Predicted by Scientists—Tremblors in Old Mexico

BELLINGHAM, Jan. 13.—Reports from the San Juan Islands state that Tuesday's earthquake shock was more severe there.

At Point Stanley, Lopez, East Sound, Olga and other places, buildings were damaged to a considerable extent.

No casualties are reported.

More Quakes Predicted
TACOMA, Jan. 13.—Dr. Willis Eugene Everett, a scientific writer, predicts further shocks in the northwest, and even some disturbances on Mr. Hood, Mt. Baker and other long dormant volcanoes.

Severe Shocks in Mexico
CITY OF MEXICO, Jan. 13.—Severe earthquake shocks have been felt at intervals during the last three days in the states of Guerrero and Oaxaca. The tremblings were also lightly felt in this city and elsewhere in Southern Mexico. The shocks did considerable damage to smaller towns in the mountains of the state of Guerrero, but so far as known no loss of life occurred.

HIGH FRUIT PRICES BREAK PAST RECORD

HOLLYWOOD, Jan. 13.—Reports made recently by Manager E. B. Owens, manager of the Sierra Madre and Lamanda Citrus Growers' Association, show an average price of \$1.75 per box for all sorts and sizes obtained on the fifteen cars shipped for the holiday trade. This breaks eight years' records.

STORM WATER SPREADING-AND ITS EFFECT

(Continued from Page 1.)

being made under the direction of the Tri-Counties committee.

The officers of the United States Geological Survey have studied this plan of creating a natural reservoir, and they cordially endorse it. When Mr. Cuttle took up with Secretary Garfield the matter of the withdrawal from entry of the lands in the Santa Ana wash that will soon be available for this work, he was warmly supported by the director of the survey, George Otis Smith, and by Engineer Mendenhall, who made a recent report on the San Bernardino artesian basin.

When the plans now under way are carried out, it is expected that 7000 or 8000 inches of water that usually runs off to the sea will be spread out on the gravels in the broad wash that marks the course of the Santa Ana for a distance of several miles after it leaves the mountains. These gravels are from 200 to 300 feet above the point where most of the artesian wells are sunk that supply San Bernardino and Riverside with water, and it is believed that most of this water, thus saved from waste, will percolate into the underground streams and lakes that supply these wells. Suppose 2000 or 3000 inches even is conserved in this way and feeds the deep reservoirs that supply our artesian wells, that flow would be a splendid addition to the supply of the communities that use this water, especially in a dry year. The project is in accord with scientific principles and it is fraught with tremendous possibilities to the irrigators of this section.
